

TABLE OF CONTENTS

| Module No. | Title | Page No. |
|------------|--|----------|
| 1 | Foundations of Economic Sanctions 1.1 Definition and Types of Sanctions 1.2 Evolution and History of Sanctions 1.3 Geopolitical Role of Sanctions 1.4 Sanctions vs Tariffs vs Embargoes 1.5 Key Institutions and Authorities 1.6 Economic and Financial Impact of Sanctions 1.7 Effectiveness and Criticism of Economic Sanctions 1.8 Case Studies in Global Sanctions | 01-22 |
| 2 | Financial Systems & Sanctions Mechanics 2.1 Global Banking Infrastructure and Payment Rails 2.2 SWIFT Messaging System and Its Role 2.3 Correspondent Banking and Risk Exposure 2.4 Asset Freezes and Fund Blocking Mechanisms 2.5 Payment Lifecycle Under Sanctions Constraints 2.6 Emerging Payment Systems and Sanctions Implications 2.7 Risks, Vulnerabilities, and Compliance Challenges in Global Payment Systems 2.8 Case Studies in Payment System Failures and Sanctions Breaches | 23-46 |
| 3 | Regulatory & Legal Frameworks 3.1 Overview of Global Sanctions Regimes 3.2 Extraterritorial and Secondary Sanctions 3.3 Compliance Obligations for Financial Institutions 3.4 FATF Recommendations and Enforcement Standards 3.5 Legal Risks, Liabilities, and Penalties 3.6 Enforcement Mechanisms and International Cooperation in Sanctions Compliance 3.7 Legal Case Studies in Sanctions Enforcement | 47-70 |

| | | |
|---|--|---------|
| | (OFAC, EU, and Global Jurisdictions) 3.8 Emerging Legal Trends in Global Sanctions Law | |
| 4 | AML, KYC & Sanctions Integration 4.1 AML vs Sanctions Compliance: Key Differences 4.2 Customer Due Diligence (CDD) and KYC Processes 4.3 Politically Exposed Persons (PEPs) and High-Risk Entities 4.4 Transaction Monitoring Systems (TMS) 4.5 Suspicious Activity Reporting (SAR/STR) 4.6 Advanced Customer Risk Scoring and Behavioral Analytics in AML & Sanctions Compliance 4.7 AI-Driven Suspicious Activity Detection Models 4.8 Case Studies in AML & Sanctions Detection Failures | 71-92 |
| 5 | Real-Time Sanctions Screening Systems 5.1 Fundamentals of Name Screening 5.2 Fuzzy Matching and Entity Resolution Techniques 5.3 Managing False Positives vs True Matches 5.4 AI and Machine Learning in Sanctions Detection 5.5 API-Based Real-Time Screening Architectures 5.6 Sanctions Screening System Architecture: Scalability, Resilience, and High-Availability Design 5.7 AI Optimization in Sanctions Screening Systems 5.8 Case Studies in Sanctions Screening Failures and System Improvements | 93-116 |
| 6 | FinTech, Blockchain & Crypto Sanctions 6.1 Cryptocurrency Risks in Sanctions Evasion 6.2 Blockchain Analytics and Chain Tracing 6.3 DeFi Ecosystems and Regulatory Challenges 6.4 Stablecoins and Cross-Border Risk Exposure 6.5 Digital Identity and Compliance Innovation 6.6 AI, Blockchain Analytics, and Smart Compliance | 117-139 |
